

**World Association for Medical Law**

# **26<sup>TH</sup> WORLD CONGRESS ON MEDICAL LAW**

**GOLD COAST, AUSTRALIA**

**December  
5 - 7  
2022**

**SPONSORSHIP PROSPECTUS**

# **Who we are**

The World Association for Medical Law (WAML) was established in 1967 in the University of Gent, in Belgium. Ever since, its main purposes and objectives have been: to encourage the study and discussion of problems concerning health law, legal medicine and bioethics and to seek possible solutions that are beneficial to humanity; to promote the study of the consequences of new developments in medicine and related sciences to the application of relevant laws; to address any matters that involve issues of medical and health law; to provide political leadership and advocacy for health law and legal medicine professionals and to encourage research and development in health law, legal medicine, bioethics and related fields.

The Association has been pursuing its purposes by organizing World Congresses on Medical Law, encouraging regional congresses on related topics, supporting National Associations for Medical Law and Legal Medicine and promoting their affiliation to the Association.

Since its creation, the WAML has held 25 World Congresses and has used its quarterly international journal, *Medicine and Law*, for the publication of more than 2000 articles by authors from more than 100 countries. The Association engages in educational activities and aims to promote discussion and deliberation amongst academic and non-academic channels, through its bi-monthly Members Newsletter .

# **The Event**

The WAML is pleased to invite you to sponsor at its 26<sup>th</sup> World Congress on Medical Law, organized for December 5 – 7, to be held at the QT GOLD COAST HOTEL. As the premier event in the fields of medicine and law, health law, legal medicine, bioethics and forensic pathology, the WAML 26<sup>th</sup> World Congress on Medical Law will be the source for cutting-edge information.

# **Why Sponsor?**

We are seeking your financial support to ensure the delivery of this important event.

The WAML World Congresses are a unique forum for exploring the interface of medicine, law, bioethics and forensic pathology to:

- Share research into current and arising health law, legal medicine, bioethics and forensic pathology issues; and
- Inform the medicine, law, bioethics and forensic pathology communities on: the impact of COVID on legal medicine; review developments within medicine and technology; and examine related topics regarding concussion and traumatic brain injury.

The conference also allows like minded people to gather in a social and collegial atmosphere, to enhance national and international collaboration, and to further scientific exchanges within an informal environment at the highest level. The WAML believes it is vital that medical and legal professionals meet to share research in these fields.

# Sponsorship Opportunities Form
